I am writing to you to express my concern over the EPA's proposed cleanup of the Love Landfill. Since there is no risk at the site, why spend millions of dollars on something that doesn't need fixing. Why not support the "cap" proposed by the engineering firm to eliminate future problems? You need to realize that our 4 County area cannot suffer the loss of jobs posed by your expensive plan and the citizens do not want this area torn up, exposing what contaminants are there. Please re-examine your plans and consider the lives/futures of thousands of Central Va residents.
